\*As the impact of COVID-19 has been significant since February 2020, the change in fluctuation compared with two years ago (2019) is also stated.

<Special Items>

With regard to the hotels owned by JHR, RevPAR of the total of the 24 Hotels with Variable Rent, etc. for April 2021 decreased by 76.3% from the same month two years ago (2019) due to the declaration of a state of emergency for several areas and other factors.

As for RevPAR of the total of the 24 Hotels with Variable Rent, etc. for May 2021, although there was a certain leisure demand during the Golden Week period, the situation of the infections continued to deteriorate, such as the expansion of areas under the state of emergency as well as the stricter measures to prevent the spread of the virus. Therefore, as of today, RevPAR for May 2021 is expected to decrease by around 75% from the same month two years ago.

Under such circumstances, each hotel continues to strive to give consideration to health of guests and employees and working to manage hygiene environment and conducting operations while thoroughly implementing cost management. In addition, each hotel is working to secure sales by taking measures aimed at capturing demand for

the near term and leisure demand in summer, such as developing value-added products and price-conscious products that meet market conditions.

\*As of today, the following hotels of the 24 Hotels with Variable Rent, etc. are temporarily closed.
