<Special Items>

In September 2019, the number of inbound visitors to Japan from South Korea decreased by 58% from the same month last year. However, the number of inbound visitors as a whole increased by 5.2% compared to the same month last year, due to the growth of visitors from China and Southeast Asia, the effects of the Rugby World Cup, as well as the impact of natural disasters in the same month last year.

While some hotels were able to capture the demand of the Rugby World Cup at high unit prices, some hotels were affected by new supply, decline in inbound visitors from South Korea, and the Typhoon Faxai. As a result, RevPAR of total of the 21 Hotels with variable rent, etc. and the Eleven HMJ Hotels decreased from the same month last year.

Against this backdrop, each hotel owned by JHR has been implementing various measures to improve RevPAR, including increased sales activities and strengthening revenue management.

- (Note 1) Please check JHR's website below for each hotel's track record of hotel operations.
